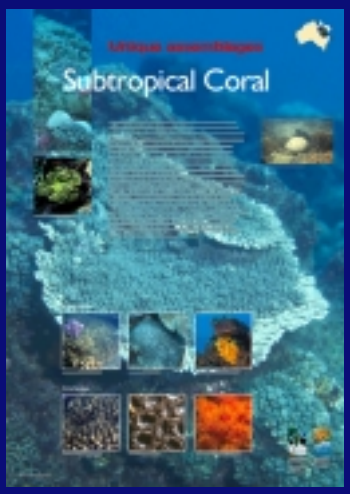
Moreton Bay Biota Poster Series

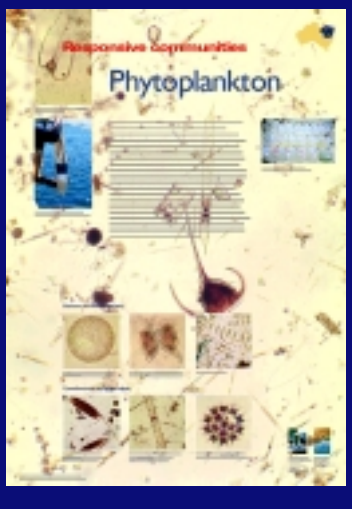
Marine Botany
The University Of Queensland

Healthy Waterways
Because we're all in the same boat

Moreton Bay is a unique system with a high diversity of marine biota. This poster series captures the essential information about these diverse organisms, from viruses and bacteria to mangroves. The series introduces each group of organisms detailing their habitat and ecological significance in Moreton Bay. For the contents of the posters visit the Marine Botany website:

www/botany.uq.edu.au/research/marine/publications/posters.htm





poster sizes 420 x 594 mm
